Report	
Academic Year	2020-2021
Name of Activity	Workshop on "Research designs and methods"
Date of Activity	24 th August 2021
Organized by	MIET
Resource Person	Dr. Shrinivas Singh, Professor, MIET
Objective	To develop an understanding as regards research design and research methods.
Brief Report	<p>Mangalmay Institute of Engineering and Technology, Greater Noida organized a workshop on "Research designs and methods" for the faculty members and the students of MIET on 24-08-2021 at 10:00 am. Inauguration session was started by auspicious hymns of Sarawati Vandana and lighting of lamp along with all the dignitaries. Dr. Yashpal Singh (Director, MIET) and HoD facilitated today's guest of honour Dr. Shrinivas Singh (Professor, MIET). Director shared their thoughts on need of research in today's world. The session started with Dr. Shrinivas Singh giving thought provoking session which made students interested. Speaker put emphasis on research design to discuss qualitative, quantitative and mixed methods research as three major approaches for research and began with a systematic comparison of qualitative and quantitative research. The reason for starting with these long standing approaches to research is that understanding their separate strengths is crucial for understanding the mixed methods of approaches of combining those strengths.</p> <p>Qualitative research captures a set of purposes associated with meaning and interpretation. On the other hand, quantitative research pursues a set of purposes associated with objectivity. Qualitative research generates detailed understanding of holistic systems through studies with relatively small number of cases. In comparison, quantitative research presents broadly applicable information through controlled procedures with large number of cases. Honorable Chairman sir and Vice chairman sir thanked all the participants for actively involving in the workshop. The workshop then came to an end</p>

	and needless to say, it had been a grand success.
Outcome	At the end of the program, everyone understood the concrete realm of quantitative and qualitative methods.
